## Educational Background

### M.Sc. (Computer Applications)

Vishwakarma Institute of Technology

June 2021 - April 2023

CGPA: 8.98

Percentage - 83.15 %

### B.Sc. (Computer Science)

Abeda Inamdar Senior College

July 2018 - April 2021

Percentage - 84.26 %

### H.S.C

Abeda Inamdar College

June 2016 - February 2018

Percentage - 66.61 %

### S.S.C

Kroot Memorial School, Pune

May 2015 - March 2016

Percentage - 84.80 %

## Certification/ Achievements

- **C Training - IIT Bombay**
- **Certificate of Appreciation from DevTown for outstanding Netflix clone project**
- **Java Full Stack Development training - Q-Spiders Institute.**

## Projects

### Movie Website

- An interactive platform for browsing and searching movie information.  
**Tech-Stack:** HTML, CSS, Javascript, Bootstrap, React

### Google-Meet Clone (Zegocloud SDK)

- A replica of Google Meet using the Zegocloud SDK for video conferencing.

### Weather Application

- User-friendly application delivering real-time weather updates and forecasts.
- Utilizes location-based or user-input data to provide accurate and timely weather information.  
**Tech-Stack:** HTML, CSS, Javascript, Bootstrap, React

### E-commerce Website

- An online marketplace facilitating buying and selling activities.
- Utilizes a technology stack comprising HTML, CSS, Javascript, Bootstrap, and React for seamless user interaction and dynamic web development.

### Quiz Management System

- Developed a console-based application for the Quiz management system which includes CRUD operations.
- Users can interact with functionalities such as adding and removing questions, updating questions, displaying all questions, and taking tests.
- The system employs a DAO approach, using JDBC to connect with a MySQL database,  
**Tech-Stack:** Core Java, JDBC, Maven, MySQL
